Live Webinars

Formats include:

- Actionable training workshops
- Interactive dialogue
- Risk management initiatives
- Real-life medical malpractice cases

“The content and tips are practical, and the issues are relevant.”

“I am more aware now of other acts that need to be charted, such as missed IV sticks.”

“The recommendations are more real-world than my own organization would have them.”

What our RN learners are saying

“I will consider every suggestion made in this course!”
